If you have any questions ask the industrial panel please send your questions [HERE](#)

## **Discussion will include:**

1. Do you believe that the industrial vacancy rate will go up due to the pandemic and how high will it go?
2. Due to our old industrial inventory, and a low vacancy rate, how many potential Buyers, and Tenants do you see go to other markets to do business?
3. What type of industries are looking at Tucson and will we see new construction to meet their requirements or will they absorb our existing inventory?

4. If you could build any type of industrial building what would you build to meet the current market?
